Activities

Green Power USA, Member August 2023 – Present

- Collaborated with other club members to form a programming team to develop a speedometer and a voltmeter for an electric race car that was built from scratch.

Formula SAE, Member August 2024 – Present

- Working on firmware for the car to add a digital display that shows the speed, temperature of engine and batteries.
- Using SQL to store the data received from the car and working on being able to put that into view on a webpage.

Experiences

Magic Valley Electric Cooperative Mercedes, TX
Summer Intern June 2023 – August 2023

- Accomplished development of a waiting list by connecting a program made using PowerApps to a database.
- Collaborated with Information Technologists to find inventoried technologies like laptops inside the database and update the software.
- Streamlined analog documentation and converted it into PDF format to better organize and access paperwork.

Texas Department of Transportation (TxDOT) Pharr, TX
Summer Intern Engineering Support June 2024 – August 2024

- Assisted in the lab testing and procedures conducted on the materials
- Developed a map using ArcGIS incorporating two different databases and displaying the roads that they want to see based on a set of parameters
- Automated a process of updating a letting list using webpage connections.

University of Texas Rio Grande Valley Pharr, TX
Resident Assistant August 2024 – Present

- Assist first year residents and students with daily living and council them on academic procedures
- Incorporate different social events to foster growth in our community
- Manage building administrative duties
